

# Cherrybrook Medical Centre

## Cherrybrook Village is becoming one of the largest health care hubs of the Hills District

The rapid population growth and increasing number of aged care facilities in the Hills District put an ever growing pressure on the Health Care industry in the area.

Since its opening in 2012 Cherrybrook Medical Centre has been offering old fashioned family care values with the convenience of bulk billing and late night and weekend after hours services. With the imminent closure of the medical centre in Castle Towers, Cherrybrook Medical Centre will be the only large, bulk billing general practice in the area.

Cherrybrook Medical Centre offers a wide range of services under one roof in Cherrybrook Village: 17 GP's, a Cardiologist, full time Registered Nurse, Pathology, a Psychologist, an Exercise Physiologist. A Pharmacy and a Dental surgery is also located within the Shopping Village. X-ray and Ultrasound facilities will also be available in the near future.

For an appointment call: 9484-5676
